Pentadomes Ready For Armed Forces Day

Col. Harvey Will Head Air Defense

The Army has announced the reassignment of Col. Clarence C. Harvey, Jr., to the U.S. Army Missile Command as Deputy Commanding General. Air Defense Systems.

His nomination for promotion to the rank of brigadier general has been confirmed by the U.S. Senate.

He will succeed Brig. Gen. Howard P. Persons, Jr., for the second time when he assumes his new duties. In 1961 he followed Gen. Persons as Deputy Chief of Staff, Headquarters, 7th Army, in Europe.

In commenting of the fact that he had been assigned Gen. Persons' job before, he said:

"I told him to keep on picking good assignments as it appeared I was destined to follow in his tracks

have risen on the Redstone Arsenare signs that Armed Forces Day at the Army's missile center is

only a month away. The air domes will house a majority of the exhibits displayed

Sunrise **Services** Set At 6

An Easter Sunrise Service for the Protestant community will be held behind the Post Chapel at Redstone Arsenal at 6 a.m. The public is invited.

Hosts for the event are the Huntsville Ministerial Association and the Post Chaplain.

Chaplain (Lt. Col.) Donald Carter will present the welcome and the benediction.

The speaker will be the Rev. Paul Clem of the First Methodist Church. J. J. Norwood, District Superintendent of the Methodist Church, will read the scripture.

Three inflated domes, which \mid during the annual observance. Two are 100 feet in diameter and 50 al horizon like giant mushrooms, feet high in the center, and the other 150 by 85 feet.

The 1965 Armed Forces Day activity at Redstone will differ from those in the past two ways. There will be no open house for tours of the Arsenal. But the public will have two days instead of one to see the numerous displays connected with the Army's family of missiles which stand ready to be

fired in defense of freedom. The site of the domes is an area known as the old Jupiter Test Stand, located just west of Patton Road on the northern boundary of the 40,000 acre military reservation. It will be open Saturday, May 15, from 12:30 to 4 p.m., and Sunday, from 2 to 5 p.m., according to Major R. H. Vereen, Armed Forces Day Project Officer.

The two days of activities will be launched Saturday morning with a parade of missiles and brass bands through downtown Huntsville. More than 1,500 troops from the Army, Marines, National Guard and Naval Reserve will march in the parade.

The Armed Forces Day observance at Redstone will be centered around many of the Army's missiles and rockets, ranging from the 20-pound heat-seeking plane killer named Redeye, to the Pershing, which can carry a nuclear warhead to a target 400 miles away. Among them will be one of the newest members of the growing missile family, Lance, a supersonic surface-to-surface missile. Skydiving and paradrops are on schedule of events for both Saturday and Sunday afternoons. Plans are for a mock striking force from Company B, 20th Special Forces, Alabama National Guard, to parachute from a helicopter and carry out an attack on a nearby 'enemy" fortress. Bleachers will be erected so that 1,000 people can Maundy Thursday Communion sit and watch the war demonstration in fields and woods just west of the airdomes. Snack facilities will be set up by the Army-Air Force Exchange Service. In a nearby grove of pines will be tables and benches for picnicking. Sparks Expects 'Strong Rush' To Close Drive

early this week, "but I am confi- per cent in each drive. dent that we will turn in the greatest effort ever in the Joint Fund drive.

The Executive Chairman for the 1965 drive was referring to the fact that participation through the first four weeks of the drive stood at 62 per cent in the National Health Agencies drive and 57 per cent in support of the Federal Service Joint Crusade.

Over 88 per cent of the Arsenal personnel made a voluntary contribution to the National Health Agencies last year while 84 per cent participated in the appeal for funds to support the Joint Crusade.

The sealed envelope drive will officially close on Friday of this ton, president of Florence State week with the final report due into the reports chairman by Monday, April 19. All envelopes should also be turned in at this time and will be forwarded to the state headquarters for the two drives where they will be opened and tabulated.

A report of the amount of contributions made by Arsenal personnel will be printed in the ROC-**KET** as soon as it is received.

The four-week report indicated that the large directorates and organizations have done exceptionally well while many of the smaller units have fallen behind. Thirteen of the agencies had not even submitted a report.

The Supply & Maintenance Directorate surged into the lead among the large organizations by boosting participation to 84 per cent in each of the drives.

Procurement & Production has reached 80 per cent in the National Health Agency drive and 71 per cent in support of the Joint Crusade. Last week's leader, Research & Development, has 77 per cent for each.

AIRDOMES RISE AT REDSTONE—These are two of three inflatable domes which will house exhibits during Armed Forces Day activities May 15-16 at Redstone Arsenal. The dome on the left is 150 feet in diameter and 85 feet high in the center, and is topped with a map of the northern hemisphere. Two 100 by 50 feet domes, like the one on the right, will flank the larger dome. The site of the domes is the old Jupiter Test Stand, located west of Patton Road near the Arsenal's northern boundary.

PENTADOMES

(Continued From Page 1)

be showing their hardware. Most of the exhibits will be in the domes, but heavy equipment, such as tanks, howitzers and larger missiles, will be outside.

The domes are woven nylon fiber coated with vinyl plastic, and are supported by air from several electric blowers. The two smaller domes were used at Redstone on Armed Forces Day in 1962.

CADETS

cadets will tour School classrooms and laboratories and receive a briefing on the pertinent changes in the newly enlarged ROTC program.

Also on Friday, 160 college teachers will tour the school. The teachers are sponsored by Alabama A & M College and are here for the southern region convention of the Phi Alpha Fraternity.

CALIBRATION (Continued From Page 1)

An elaborate air conditioning system will control temperature, humidity and dust in the laboratories. There will be a complete turnover of air every eight minu-In the Physical Standards tes. Laboratory, where length measurements are made, the temperature must be maintained to within onetwentieth of a degree of 68 degrees Fahrenheit.

The Electronic and Microwave Standards Laboratories will be inclosed in a 'box' of 28-guage sheet metal to keep out vibrations. All water, electricity and telephone lines running into the building will be filtered to cut out any interference.

As a worker enters the Physical Standards Laboratory, his shoes will be vacuumed free of dust, and dirt will be removed from the soles as he walks on 'fly-papertype' material. Then, he will take an air shower. "Ultra-clear room" conditions will be maintained in some parts of the laboratories and

a person entering must change from his street clothes.

The mission of the Calibration Center is to provide calibration services in inspecting, testing and adjusting components of missile and rocket weapon systems. The new facility is being erected because of the steady increase in demand for precision measurements and the lack of desired environmental control in Building 4500, where the Center has been located since it was established in 1961, according to Don I. Hervig, Chief, Calibration Center.

The new Center will be built on a site northeast of the Missile Command's Francis J. McMorrow Missile Laboratories. The building, with 39,280 square feet of floor space, will face Martin Road from the south.

AOA (Continued From Page 1)

heads (Non-Nuclear) Will Be Needed During 1970-75?" On the panel will be technical specialists from the Army, Navy and Air Force, with retired Brig. Gen. Merle H. Davis, Bomb and Warhead Section chairman, as moderator

The Commanding General of the Missile Command, Maj. Gen. John G. Zierdt, is scheduled to address a joint dinner meeting of the Bomb and Warhead Section of the Tennessee Valley Post, AOA, Monday at Redstone Arsenal Officers' Open Mess. He will discuss the complex problems associated with defeating enemy tanks and the Army anti-tank missile family designed to counter this threat.

Two technical papers by Research and Development Directorate specialists will be among the eleven papers presented Monday. Thye are, "Inertia Fuzing Schemes for Warheads," by Karl Bezner, Army Inertial Guidance and Control Laboratory, and "Army Missile Command High Energy Laser The Redstone Rocket

Hospitality, Tours, Studies Mixed At School

FLAGS DISPLAYED — Capt. Estel Hobbs, Deputy Chief at the OGMS Foreign Liaison Division, puts up one of 17 flags representing countries whose men train in the Hawk, Pershing, Sergeant and Nike missile systems at OGMS.

HELP WITH ENGLISH—The OGMS foreign liaison division helps foreign students with their classroom and social life through a series of language lab sessions. PFC Phil Thorne of Covina, Calif. instructs Sgt. Etimmio Garcia-Sedano of Spain.

TOUR PLANNER—OGMS foreign students learn the American way of life partly through tours planned by the Foreign Liaison

Take an active program of hospitality, add a generous amount of pre-planned tours, blend in an ultra-modern language lab, sprinkle with co-operation of civic and social clubs, and mix thoroughly with a large dose of traditional Huntsville friendliness. Serves 600 per year.

The result is an effective foreign liaison program, a product of the Foreign Liaison Office at the Guided Missile School.

More than 600 missile students from Belgium, China, Canada, Denmark, France, Germany, Greece, Israel, Italy, Japan, Korea, The Netherlands, Turkey, Spain, Sweden and the United Kingdom are now training in the maintenance of the Pershing, Hawk and Nike Missiles. With them are some wives and children.

Since the foreign missile training program began in 1957, more than 5,000 overseas students and members of their families have come to this Northern Alabama city for courses running as long as a year and a half.

Making certain that they learn more about the U.S.A. than is found in technical missile manuals is the prime goal of the Foreign Liaison Divison of the school, headed by Major A. Q. Woodward Jr.

In addition to serving as the official contact for the foreign students and officers at OGMS, the division conducts "Operation Welcome" which ranges from the setting up of local and state-wide tours to giving advice to dependent wives on the location of super markets and on U.S. weights and measures.

"But friendliness does not stop at the liaison office," Capt. Estel Hobbs, Deputy Chief, said. "Civic clubs, 'adopt' countries as group projects and introduce the forcign visitors to the American way of life. Church groups have welcomed our visitors and have staged picnics and other social events on their behalf. Through our sponsorship program, area citizens and the military have become friends of the missilemen and have done everything possible to make them welcome."

The voluntary policy of friendliness adopted by Huntsville has led to a free exchange of views between the visitors and local citizens, Hobbs said.

About 95 per cent of foreign students at the Missile School have been "adopted" by church, civic and social organizations in Huntsville.

Organizations that have become official hosts to entire nations at OGMS include the Huntsville Rotary Club (Germany), the Huntsville Kiwanis Club (Japan), Metropolitan Kiwanis Club (Japan), Grace Club Auxiliary (Denmark). Business and Professional Womens Club (Greece), the Altrusa Club (Italy), and the Huntsville Lions Club (Belgium).

AWAY WE GO—Leaving for an Alabama point of interest, foreign students at the Army Ordnance Guided Missile School board a military bus. PFC Alfred Peavy of Brooklyn, N.Y., serves as escort for the group.

TRAINING STUDENTS — A briefing on OGMS and its missile courses is conducted by Frank Bowman, educational adviser at the Foreign Liaison Division. Students from 17 nations train in missile systems at OGMS.

Officers For 1965

Reserves Install

Edward S. King, was installed as president of the Huntsville Chapter of the Reserve Officers Association in April.

King, a Navy Reserve lieutenant commander, is employed by Boeing Company in Huntsville and is attached to an active Navy Reserve Unit at Robbins Air Force Base, Ga.

Other officers are: John T. Marran, USAFR, vice president; Harold E. Wright, USAR, secretarytreasurer; Michael Vaccaro, vice president for Air Force; J. V. Klima, vice president for Army; William T. Zumwalt, vice president for Navy.

On the executive committee are: John L. Edgar, Army; Charles F. Shields, Air Force and William L. Howard, Navy.

Edgar was appointed chairman of the Huntsville delegation to the Department of Alabama State Convention scheduled Apr. 24-25 in Montgomery at the Continental Inn Motel. Interested Reserves who wish details can contact Edgar at 534-9866.

PLANNING SOUTHERN METALS CONFERENCE—Three Army Missile Command technicians and members of the Tennessee Valley Chapter of the American Society of Metals draw up the agenda for the April 28-30 Southern Metals Conference in Huntsville. From left to right are: Edmund J. Wheelahan, William T. McClane and Kenneth Parr, all of the Research and Development Directorate. The Tennessee Valley Chapter will host the meeting of ASM members from the southeastern states.

Metals Refresher Course Offered

A seven-day refresher course in elements of metallurgy will be presented May 3-12 by the Metals Engineering Institute.

The course is sponsored by the Training Division of the Missile Support Command's Civilian Personnel Office. It was announced by Kenneth Parr, a Metal Engineering Institute Advisor employed in the Propulsion Laboratory of the Directorate of Research and Development at the Missile Command. John Heath is the coordinator for the Training Division.

The first course offered by the Institute is open only to government employees. Other courses will be offered on a tuition basis

Nominations Open In Conservation Awards Program

The Redstone Arsenal Sportsman's Club is sponsoring a meeting of North Alabama sportsmen and conservationists this week for the purpose of making nominations for the Governor's 1965 Conservation Awards.

The awards program is sponsored by the Sears-Roebuck Foundation to encourage the teaching and practice of conservation of Alabama's natural resources. The awards will be presented by Gov. George Wallace at the annual meeting of in the community at a later time. more into the Huntsville area. Fur-Negotiations are underway now, ther information about these can according to Parr, to bring several be obtained from Parr at 876-0343.

Dr. E. B. Norton **Schedules Talk**

Dr. E. B. Norton, President of Florence State College will be the guest speaker Thursday night at the April meeting of the Huntsville Chapter, Federal Government Accountants Association.

The meeting will begin at 6:30 p.m. at the Redstone Officers' Open Mess.

Dr. Norton is a graduate of Bir-mingham-Southern College and served as the Alabama State Superintendent of Education and Dep uty United States Commissioner of Education prior to becoming President of Florence State College in 1948.

The subject of Dr. Norton's talk will be "A New Urgency In Education.'

Chemical Engineers To Hear Dr. linoya

North Alabama Section of the American Institute of Chemical Engineers will meet at the Holiday Inn in Florence Tuesday at 6:30 p.m.

The guest speaker will be Dr. Koichi Iinoya, Special Research Engineer, Georgia Institute of Technology. His subject will be "Education and Research on Chemical Engineering in Japan."

Dr. Iinoya received his Bachelor of Engineering degree from Tokyo Imperial University and his Doctor of Engineering degree from Nagoya University in Japan. His past experience includes Lecturer and Assistant Professor in the Me chanical Engineering Department, Assistant Professor and Professor in the Chemical Engineering Department of Nagoya University and Professor in the Chemical Engineering Department of Kyoto University. He was a Fulbright Exchange Research Scholar at the University of Wisconsin and Georgia Institute of Technology.

He is presently conducting research in micrometeorites (fine particle technology) and process dynamics in chemical engineering His current investigations are related to dust collectors, pneumatic conveyors, particulate characteristics, measurement, dynamics and controls.

Reservations must be made by noon Monday, with J. L. Murphy, Jr., of Thiokol Chemical Corporation, 876-9636.

FRENCH GENERAL VISITS REDSTONE—The Deputy Chief of Staff for Logistics and Administration of Allied Air Forces Central Europe, General de Division Aerienne Andre Menu, center, visited the Army Missile Command last week and was briefed on maintenance of Hawk and Nike missiles, which are deployed in Europe. Here, the French Air Force General is greeted by Col. R. W. Grote, Director, Supply and Maintenance Directorate. Col. Richard E. Banning, U. S. Air Force, right, also is assigned to the headquarters of Allied Air Forces Central Europe, one of three NATO international air commands. The two officers are on a ten-day tour of installations in the United States.

C.I.T. knows that you don't enjoy borrowing money.

(That's why we give you such fast service.)

Don't ever think we're rushing you through when you stop in at C.I.T. for a loan to pay bills . . . to travel . . . or meet personal problems. The reason you'll find us handling your application so fast is this: We've learned that people don't come to us when they need sympathy. They come to us when they need money. So expect speedy money service when you come to see us about MEETING SET

The Society of Motion Picture and Television Engineers will meet Tuesday night, April 20 at the Sheraton Motor Hotel. Mr. Robert Shoberg of Red Lake Laboratories will address the society on "The Latest Design in Rotating Motion Picture Cameras." The movie "The Magic of Mexico," will be shown at the close of the meeting. Interested persons are invited to attend the social hour at 7:00 p.m. and the meeting at 8:00 p.m.

National Secretaries Plan Army Will Have Exhibits **Busy Schedule Next Week**

Future secretaries, established son Federal Savings and Loan Assecretaries, bosses-all will ob- sociation, is the scheduled speaker. serve Apr. 18-24 as National Secretaries Week.

Four Future Secretaries, members of the Future Secretaries Association sponsored by the Huntsville Satellite Chapter of the National Association, will be able to observe the duties of a secretary on the job. Four members of the Satellite Chapter will have a future secretary as her guest at the office.

One will be at the Missile Support Command with Ethel Over ton, secretary in the office of the Assistant for Logistics; a second will be the guest of Bertha Davis in the Sergeant Project Office; a third will be with the Chairman for the Secretary Week artivities in Huntsville, Margaret Boudreau, in the Directorate of Production and Procurement; and the fourth will be with Juanita McCary, secretary to the Director of Programs in the Comptroller and Director of Programs Office at the Missile Command. Mrs. McCary is a cochairman of Secretary Week events.

Wednesday secretaries from Greater Huntsville will honor their bosses at a luncheon at the Russel Erskine Hotel. Ian Stuart, assist ant to the president of the Jeffer-

Army Must Be Flexible

for the individualism of its men becomes a dismal piece of machinery with no flexibility and no room for change.

This was the view of Col. Thomas J. Cleary Jr., information of-ficer of the Continental Army Command who spoke to 45 U.S. and overseas students Friday at the Army Ordanace Guided Missile School.

Cleary said he believes the reason that so many young men who come into the Army enter with resistance and are anxious to get out is mainly because the services are not always calibrated to allow for individual idiosyncracies and weaknesses.

"These factors must be taken into account in today's Army," he said.

He told the graduates from the United States, Belgium, France, Greece, Italy and Norway that the knowledge they have gained in missilry has enhanced their individual importance considerably.

William Weissinger, (USA Ret), representing the Tennessee Valley Chapter of the Association of the U. S. Army, presented academic achievement plaques to M/Sgt. Andrew Andreopoulos of Greece and Sgt. Francesco Casta of Italy. The two were high men in their Nike Hipar and Simulator Repair course, both having earned grade point averages of over 97 per cent.

"The Association of the U. S. Army has many goals," Weissinger said. "One of its main goals is to award and recognize students in Army schools who have achieved academic excellence."

Weissinger said the coveted award must really be earned, stating that of the some 2,171 stu-

Mess Hall Hash **Sounds Different;** Adds Up To Same

Gripes about Army mess halls are universal, a guest speaker at the Ordnance Guided Missile School proved this past week.

Col. Thomas J. Cleary Jr., in formation officer of the Contin ental Army Command, addressing approximately 45 U.S., Belgian, French, Greek, Italian and Norwegian missile graduates Friday, pointed out that not only Ameri can soldiers have traditional S.O. S. (Same Old Slop) foods.

The Italians have Speezatino which is hamburger hash often referred to as the American equivalent of "bed bugs."

The Germans have a dish termed "foot wrappers and fleas," and the Belgians have a mess hall meal composed of left-overs whose English equivalent students refuse to reveal.

Cleary used the food gripe similarities to point out that soldiers throughout the free world are very much like their counter-parts in the U.S.

SUSTAINED SUPERIOR Morris L. Vines, Press Opera-

tor, Offset, Reproduction Division; OGMS WORKER EARNS 40-YEAR

SERVICE PIN Ten and twenty-year service pins are awarded regularly at

the Army Ordnance Guided Missile School here, but the awarding of a 40-year pin this week took School officials by surprise.

Government service veteran Oscar Yarbrough received the 40-year pin from Col. William J. Macpherson, School commandant, at an informal presentation Friday. Yarbrough is 65.

Macpherson lauded Yarbrough as a true OGMS pioneer. The award winner set up the Schooi's first machine shop 13 years ago.

"This is one pin, I'll have

MISSILE MASTER

Clerk-Typist, Post Engineer.

The Army's Missile Master is complete electronic system which semi-automatically controls and coordinates the fire of Nike missile units. It can function in-(NNS)

A NICE SURPRISE-Coi. Brian O. Montgomery (Ret.), left, who was formerly assigned with the Army at Redstone Arsenal, is presented the Legion of Merit by Maj. Gen. John G. Zierdt, Commanding General, Army Missile Command. The Colonel worked for the General while at Redstone. The award, which Col. Montgomery said came as a surprise to him, resulted from the decisive leadership, managerial ability and professional skill he demonstrated when he was Commanding Officer to Tooele Army Depot, Tooele, Utah, from August 1963 to August 1964 just before he retired. He is now employed as the resident manager of the Marshall Space Flight Center Industrial Operations Resident Office. Cape Kennedy, Fla., and lives in Melbourne, Fla.
